

## **Project Engineer**

Advance your career at Agilitas Energy, the leading developer, builder, owner and operator of large scale, commercial solar and battery storage systems in the Northeast.

This is an entry-level engineering position and a key member of the project team, assisting in preliminary design and construction level support for utility scale solar and energy storage projects. The Project Engineer will be involved in the project from early-stage development, through construction, to project handoff with the Operations and Maintenance team.

### **Scope of Responsibilities (include but not limited to):**

- Assist in the development of Site Plan drawings and Electrical Diagrams.
- Assist in Permit and Construction Design packages.
- Assist with project design optimization.
- Assist in the development of project cost estimates.
- Assist with new equipment review and screening.
- Define scope of work and requirements for projects.
- Create bid solicitation packages for subcontractor work.
- Assist in review of RFIs and Submittals from Subcontractors.
- Execute site QA/QC activities.
- Perform other duties as assigned by Agilitas.

### **Job Skills**

- Proficient with AutoCAD
- Experience with PVSyst or similar energy modeling software
- Base level understanding of the solar/energy storage design and construction process.
- Desire to work on-site during construction phase.
- Excellent time and workload management skills
- Strong technical aptitude with ability to deliver creative solutions.
- Self-driven, highly motivated and able to work with minimal supervision.
- Ability to multi-task and manage numerous projects simultaneously.
- High degree of attention to detail and follow-through.
- Ability to read and understand electrical, mechanical, civil and/or architectural drawings.
- Strong work ethic with a passion to advance renewable energy.
- Proficiency in Microsoft Office Suite (specifically Microsoft Project and Excel).
- Excellent verbal and written communication skills.

**Background and Experience:**

- Minimum Bachelors of Science in Engineering, Civil or Electrical preferred
- 1-3 years proven track record in solar/energy storage engineering, development and/or construction
- Experience with design/build commercial or industrial construction projects and contracts.
- OSHA 10-hour Construction Card a plus
- Knowledge of Building and Electrical codes.

**Position Compensation:**

Agilitas employee benefits include (but are not limited to):

- Competitive salary and bonus potential
- Comprehensive health, vision and dental insurance.
- Health Savings and Flex Spending Account eligibility
- 401k plan eligibility
- Employee Assistance Program
- Access to Group Life and Personal Accident Insurance
- Access to Short & Long-Term Disability Insurance
